

## **OWN FABRIC ROMAN BLINDS**

### **LINING**

All Roman Blinds come lined as standard\* A special light resistant lining (black-out) can be specified, again in white or cream, making Roman Blinds ideal for bedrooms.

### **CONTROL OPTION**

Your Roman Blind is Velcro mounted onto a quality aluminum head-rail with a smooth endless ball chain operation on the left or right.

The ball chain is white plastic as standard or a nickel-plated chain

All brackets and fixings are supplied

### **FABRIC REQUIREMENTS**

For standard blinds please supply 150mm wider than blind width and 350mm more than drop. Please make your own allowances for pattern matching.

If fabric requires joining we will make with a centre panel and balanced panels on either side.

Fabric should be sent whenever possible on the roll, and avoided sending heavily creased fabric.

Fabric should be sent with a copy of your emailed order confirmation direct to our Roman Blind factory at

**Crosby Blinds**  
**17-18 Trinity Centre**  
**Park Farm Industrial Estate**  
**WELLINGBOROUGH**  
**NN8 6ZB**

Please do not send us curtains or bedding as fabric, unless it has been totally unpicked, pressed and is clean

We are also able to supply cushions and curtains from your own fabric.
